

IT & Information Security Policy

K International Pvt. Ltd. — Internal Policy Document (Sample/Reference Only)

Purpose

This policy defines acceptable use of K International Pvt. Ltd. IT systems, devices, and data, and the minimum security practices every employee must follow.

Acceptable Use

- Company laptops, email, and software accounts are provided for business use; incidental personal use is permitted if it does not interfere with work or violate any policy.
- Employees must not install unlicensed or unapproved software on company devices.
- Sharing company accounts or credentials with anyone, including colleagues, is strictly prohibited.

Password & Access Policy

- Passwords must be at least 12 characters and include upper case, lower case, numbers, and symbols.
- Multi-factor authentication (MFA) is mandatory for email, VPN, and all cloud business applications.
- Passwords must be changed immediately if a compromise is suspected, and reported to IT Support.

Device & BYOD Policy

- Company-issued laptops must have disk encryption and endpoint antivirus enabled at all times.
- Personal devices (BYOD) used to access company email must be enrolled in Mobile Device Management (MDM).
- Lost or stolen devices must be reported to IT Support within 2 hours of discovery.

Data Security & Confidentiality

- Confidential company or customer data must not be stored on personal cloud drives or USB devices.
- Data classified as Confidential or Restricted must be encrypted when shared externally.
- Employees must lock their screens (Windows+L / Cmd+Ctrl+Q) whenever leaving their desk.

Incident Reporting

Suspected phishing emails, malware, or data leaks must be reported immediately to it-security@kinternational.example. Do not forward or reply to suspicious emails.

This is a fictional sample document created for demonstration purposes for the K International Pvt. Ltd. Employee Knowledge Assistant project. It does not represent a real company or real policy terms.
